

Department of Energy

Washington, DC 20585

November 3, 2010

TO: INGRID KOLB
DIRECTOR
OFFICE OF MANAGEMENT

FROM: GLENN S. PODONSKY
CHIEF HEALTH, SAFETY AND SECURITY OFFICER
OFFICE OF HEALTH, SAFETY AND SECURITY

SUBJECT: DIRECTIVES CERTIFICATION STATEMENT

Department of Energy (DOE) Guide 441.1-1C, *Radiation Protection Programs Guide for use with Title 10, Code of Federal Regulations, Part 835, Occupational Radiation Protection*, dated May 19, 2008, has been reviewed by my organization and deemed to be in compliance with related Departmental Directives, Secretarial Delegations, organizational structure, budget guidelines, regulations, standards, OMB guidance, relevant memoranda of understanding, and public laws.

In addition, this directive is not found to cause undue burden (i.e., significant cost impacts, overly prescriptive, redundancy, or excessive reporting requirements) on Departmental elements and contractors.

This directive provides implementation assistance specifically for the requirements of title 10, Code of Federal Regulations, part 835 (10 C.F.R. 835), *Occupational Radiation Protection*. The Office of Health, Safety and Security plans to amend 10 C.F.R. 835 in the next 2 to 3 years and will update the guidance once the amendments have been published in the Federal Register.

I certify that this directive is accurate and continues to be relevant and appropriate for use by the Department.

Please contact Bill R. McArthur, Director, Office of Worker Safety and Health Policy, at (301) 903-6061 for additional information.
