

Delegations and Designations Re-Numbering Project

The new Delegations numbering system identifies the Delegant,¹ Delegate,² and year the document was approved. Please see the following example:

S1-DEL-S2-2021-2

- S1 = The Delegant; in this example, the Secretary.
- DEL = This is a Delegation document.
- S2 = The Delegate; in this example, the Deputy Secretary. If a Delegation is to a person by name, the person's last name may be used here.
- 2021 = The year in which the Delegation was approved.
- 2 = The second delegation from the Secretary to the Deputy Secretary approved in that year. The third delegation from the Secretary to the Deputy Secretary in a given year would include "-3" at the end of the number instead of "-2". This last number will only be used if needed.

The new Designations numbering system similarly identifies the Designator,³ Designee,⁴ and year the document was approved. Please see the following example:

S1-DES-S2-2021-2

- S1 = The Designator; in this example, the Secretary.
- DES = This is a Designation document.
- S2 = The Designee; in this example, the Deputy Secretary. If a Designation is to a person by name, the person's last name may be used here.
- 2021 = The year in which the Designation was approved.
- 2 = The second delegation from the Secretary to the Deputy Secretary approved in that year. The third delegation from the Secretary to the Deputy Secretary in a given year would include "-3" at the end of the number instead of "-2". This last number will only be used if needed.

The following crosswalks show the changes to the numbering system through this effort. Delegations and Designations not listed below were converted to the new numbering system through recent revisions.
