2. CANCELLATION. Chapter I *Labor Relations*, Chapter II *Labor Standards*, and Chapter III *Reductions in Contractor Employment*, of DOE O 350.1 Chg 4, *Contractor Human*

Resource Management Programs, dated 9-30-1996. Cancellation of a directive does not, by itself, modify or otherwise affect any contractual or regulatory obligation to comply with the directive. Contractor Requirements Documents (CRDs) that have been incorporated into a contract remain in effect throughout the term of the contract unless and until the contract or regulatory commitment is modified to either eliminate requirements that are no longer applicable or substitute a new set of requirements.

3. APPLICABILITY.

- a. Departmental Applicability. This Order applies to all Departmental elements as set forth in Chapters I through III of this Order.

The Administrator of the National Nuclear Security Administration (NNSA) will assure that NNSA employees comply with their respective responsibilities under this directive. Nothing in this Order will be construed to interfere with the NNSA Administrator's authority under section 3212(d) of Public Law (P.L.) 106-65 to establish Administration-specific policies, unless disapproved by the Secretary.

- b. Contractor. This Order does not directly impose any requirements upon contractors.
- c. Equivalencies/Exemptions for DOE O 350.3. Seeking equivalencies and exemptions to this Order must be processed in accordance with DOE O 251.1C, *Departmental Directives Program*.

In accordance with the responsibilities and authorities assigned by Executive Order 12344, codified at 50 U.S.C. sections 2406 and 2511 and to ensure consistency through the joint Navy/DOE Naval Nuclear Propulsion Program, the Deputy Administrator for Naval Reactors (Director) will implement and oversee requirements and practices pertaining to this directive for activities under the Director's cognizance, as deemed appropriate.

4. REQUIREMENTS. Requirements are set forth in Chapters I through III of this Order.

BY ORDER OF THE SECRETARY OF ENERGY:

DANIEL B. PONEMAN
Deputy Secretary

CHAPTER III.

REDUCTIONS IN CONTRACTOR EMPLOYMENT

1. **PURPOSE.**

- a. To ensure contractors perform workforce planning that provides for continued availability of critical knowledge, skills, and abilities required for the Department's mission.
- b. To ensure contractor workforce restructuring actions are conducted in a manner that minimizes the impact on programmatic activities.
- c. To ensure contractors provide reasonable notice to employees, their representatives, public officials, and other stakeholders of necessary reductions in contractor employment, and to consult with them in planning for work force restructuring.
- d. To the extent practicable, to minimize involuntary separations at DOE defense nuclear facilities and other facilities through retraining, attrition, and other measures, as practicable.

2. **APPLICABILITY.**

Pursuant to the Applicability provisions set forth at the beginning of this Order, this chapter is applicable to all Departmental elements responsible for the management of cost reimbursable contracts that include provisions for DOE reimbursement of contractor human resource costs.

3. **REQUIREMENTS.**

- a. Manage workforce restructuring actions in accordance with this chapter and Departmental policies, as revised from time to time. Accountability will be with the Under Secretaries unless otherwise delegated. Collaboration is expected with the DOE and NNSA Offices of General Counsel, Management, Congressional and Intergovernmental Affairs, and Public Affairs. It remains critical to ensure complete legal reviews of all workforce restructuring actions as specified in this Chapter.
- b. DOE/NNSA will review contractor specific workforce restructuring plans (Specific Plans) for use of recruitment, retention, and best practices to ensure continued availability of the critical workforce knowledge, skills, and abilities required for the Department's missions.
- c. DOE/NNSA will not approve contractor requests for enhanced benefits, i.e., benefits in excess of those provided for under the parties' contract, including benefits in excess of those provided for under any benefit plans approved by the Department, unless otherwise approved by the Secretary or Deputy Secretary.

- d. DOE/NNSA will not approve contractor requests to provide involuntary separating contractor employees pay in lieu of notice in excess of two weeks, unless otherwise approved by the Secretary or Deputy Secretary.
- e. Absent Secretarial approval, DOE/NNSA will not approve contractor requests for reimbursement of early retirement incentives funded through contractor pension plans.
- f. For NNSA, the requirements of this Chapter shall apply to the extent the requirements are consistent with NNSA Business Operating Procedure (BOP), BOP-003.0601R1, Contractor Human Resources (CHR) Policy and Approval of Actions Process, Attachment 1, the Approval of Contractor Resources Action Table, Reductions in Contractor Employment.

4. REQUIREMENTS APPLICABLE ONLY TO DOE/NNSA DEFENSE NUCLEAR FACILITIES.

- a. Upon a determination that a change in the work force at a DOE defense nuclear facility is necessary, the Department is obligated under section 3161 of the National Defense Authorization Act for Fiscal Year 1993, Public Law 102-484 (Section 3161), codified at 42 U.S.C. 2704, to prepare a workforce restructuring plan (General Plan) for submission to Congress. A list of Defense Nuclear Facilities is available online at <http://energy.gov/gc/services/technology-transfer-and-procurement/office-assistant-general-counsel-labor-and-pension>.
- b. The General Plan shall be submitted to the Secretary, who will approve or disapprove it for delivery to Congress.
- c. The General Plan shall lay out how contractor workforce restructuring will be conducted at the site in a manner that meets the objectives of this Chapter. The Department has developed a template for General Plans to ensure consistency and accurate application of Section 3161 and Departmental policy, as well as to expedite Departmental review. The template for the General Plan and the accompanying notice of intent to develop a plan for workforce restructuring is available online at <http://energy.gov/gc/services/technology-transfer-and-procurement/office-assistant-general-counsel-labor-and-pension>.
- d. In order to ensure appropriate consultation with affected stakeholders in the development of a General Plan, Section 3161 provides that changes in the work force at a Department of Energy defense nuclear facility should be made only after notice of the anticipated change is provided to the Department, affected employees, and the local communities. Section 3161 requires such notice at least 120 days before the anticipated change to permit the development of a General Plan by the Department, where no General Plan is in place.
- e. The Department has interpreted Section 3161 to trigger the requirement to develop a General Plan only where the change anticipated will affect at least 100 employees within a 12-month period.

- f. General Plans developed in accordance with Section 3161 provide a framework for workforce restructuring actions at a particular DOE or NNSA site; these plans are not limited to a specific workforce restructuring action. Departmental policy on matters such as use of incentives and employee waivers has changed over time, and, accordingly, it is crucial to periodically review and update the General Plans for each site. The Department has developed a template for a Notice to advise stakeholders that a new draft General Plan for the site is, or will become, available for comment. The notice is available online at <http://energy.gov/gc/services/technology-transfer-and-procurement/office-assistant-general-counsel-labor-and-pension>.
 - g. Certain employees involuntarily terminated during an approved workforce restructuring at a defense nuclear facility should receive preference in filling vacancies in the work force of the DOE/NNSA contractors and subcontractors. The Department has determined that employees must be identified as having helped maintain the Nation's nuclear deterrent in order to qualify for this preference. Preference eligible employees are those employees who were employed at a defense nuclear facility on or before September 27, 1991, and have worked at a DOE defense nuclear facility since that date. Complete eligibility criteria for the preference are available online at <http://energy.gov/gc/services/technology-transfer-and-procurement/office-assistant-general-counsel-labor-and-pension>. Section 3161 requires all prime contractors and subcontractors whose contracts with the Department equal or exceed \$500,000 in value to honor the preference.
- 5. REQUIREMENTS APPLICABLE TO BOTH DOE/NNSA DEFENSE NUCLEAR FACILITIES AND NON-DEFENSE FACILITIES.
 - a. The appropriate Under Secretary is charged with responsibility for approving workforce restructuring actions by its contractors as set forth herein. This approval authority may be delegated as determined by the Under Secretary. All such delegations must be in writing. If, by the terms of the contractor's contract, it must obtain Contracting Officer approval to expend funds associated with a workforce restructuring action, this requirement shall in no way be construed to abrogate the contracting officer's authority.
 - b. Each contractor is obligated by DOE contractor workforce restructuring policy to prepare a Specific Plan if either of the following conditions are met within a rolling 12-month period:
 - (1) The contractor intends to reduce its work force by 50 or more employees through involuntary separation; or
 - (2) The contractor intends to reduce its work force by 100 or more employees through a combination of voluntary and involuntary separation actions.

- c. In order to provide substantive and helpful comments and to work with the contractors on approaches to reduce risk, Under Secretaries/designees, in consultation with appropriate staff offices, will review any Specific Plan within 10 business days after submission of the plan, unless the contractor is notified of issues necessitating an extension of time.
- d. The Specific Plan shall lay out how the contractor will conduct its workforce restructuring action at the site in a manner that meets the objectives of this Chapter. The Department has developed a template for Specific Plans to ensure consistency and accurate application of Section 3161 and Departmental policy, as well as to expedite Departmental review. The templates for the contractor Self-Select Voluntary Separation Plan and the contractor Involuntary Separation Plan, as well as the General Release and Waiver Form are available online at <http://energy.gov/gc/services/technology-transfer-and-procurement/office-assistant-general-counsel-labor-and-pension>. If the contractor believes it will be necessary to conduct a voluntary separation program followed by an involuntary separation, the contractor may combine the Self-Select Voluntary Separation Plan and the Involuntary Separation Plan into one Specific Plan for submission to the Department.
- e. DOE/NNSA notifications to Congress of upcoming workforce restructuring actions will occur within 48 hours (two business days) of approval of the Specific Plan, or contractors will receive an estimate for completing notification, to allow appropriate planning to occur. This notification to Congress must occur prior to any public announcement by DOE, NNSA, or the contractor.
- f. For non-defense DOE facilities, the delivery of a General Plan to Congress is at the discretion of the Secretary.
- g. Government contractors are prohibited by law from engaging in discrimination in the workplace. Consistent with the contract clauses set forth in Section H, Special Contract Requirements, the contractor must perform an adverse impact analysis (also known as a diversity analysis) when the involuntary separation action affects 50 or more contractor employees within a rolling 12-month period. A copy of the analysis shall be provided to the DOE/NNSA site counsel (to protect Attorney-Client privilege) to assist in determinations regarding cost allowability. In analyzing contractor requests for reimbursement of costs associated with settlement of employment discrimination litigation, DOE/NNSA will take into account the results of any Office of General Counsel review of the contractor's adverse impact analysis. Information on adverse impact analyses, a template, and an example can be found online at <http://energy.gov/gc/services/technology-transfer-and-procurement/office-assistant-general-counsel-labor-and-pension>. An adverse impact analysis is used to assist the contractor in ensuring compliance with Executive Order 11246, implemented through FAR clause 52.222.26.
- h. Contractors are encouraged to consider the use of employee waivers and releases. The Department has developed a model waiver and release of claims. If a contractor decides to use an employee waiver/release, the Office of the Assistant

General Counsel for Labor and Pension Law or NNSA-GC, as appropriate, must approve any deviation from the Departmental model. The Departmental model waiver and release of claims is available online at

<http://energy.gov/gc/services/technology-transfer-and-procurement/office-assistant-general-counsel-labor-and-pension>.

- i. The Department shall ensure contractors are not hiring or rehiring individuals, who volunteered for termination during a Self-Select Voluntary Separation Plan for a one-year period after the separation. If an employee is rehired prior to the one year period, the employee may be required to pay back all or a pro-rata amount of the severance received.

6. RESPONSIBILITIES.

a. The Secretary or Deputy Secretary, as appropriate.

- (1) Approves and Submits General Plans to Congress.
- (2) Approve/disapprove contractor requests for enhanced benefits, i.e., benefits in excess of those provided for under the parties' contract, including benefits in excess of those provided for under any benefit plans approved by the Department.
- (3) Approve/disapprove contractor requests to provide involuntarily separating contractor employees pay in lieu of notice in excess of two weeks.
- (4) Approve/disapprove contractor requests for reimbursement of early retirement incentives funded through contractor pension plans.

b. Under Secretaries/Designees.

- (1) Accountable for ensuring contractor workforce restructuring actions are managed in accordance with Departmental policy.
